

AT PREMIER, WE'RE LIKE DETECTIVES. IF THERE'S A PROBLEM ANYWHERE IN YOUR SYSTEM, WE FIND IT.

Since 2003, Premier has provided a cost-effective way for utility companies nationwide to protect their infrastructure. Our in-house teams utilize the most advanced technology to ensure superior quality and reliability in everything we do. Premier believes that proper training, quality assurance and safety measures are of paramount importance in our industry. At Premier we are committed to performing accurate and timely locates, damage prevention and quality assurance for our customers.

With more than 500 employees and a fleet equipped with Global Positioning System (GPS) devices, we are able to immediately dispatch the appropriate field technician. We can also incorporate GPS data collection for inventory/asset management into a Geographic Information System (GIS) mapping system. We provide real time updates on our secure online database allowing immediate visibility for all client projects. In addition, our corporate call center is available 24/7 to guarantee the success of the project and responsiveness you require.
