

**WE'RE A FULL-SERVICE CONTRACTOR DEDICATED TO SERVING OUR ELECTRIC, TELECOMMUNICATION AND GAS CUSTOMERS.**

Trafford Corporation was established in 1955 as a family-run mechanical contracting business and has since grown into a full-service provider of underground utility construction services for gas, electric and telecommunications customers. Today, our staff of more than 500 employees serves the largest utilities on the East Coast.

Since our inception, we have actively demonstrated a commitment to quality and safety. We maintain this commitment through field and classroom training programs adapted to the requirements of the Department of Transportation's Operator Qualification (OQ) program.

**Trafford Electric Construction Services:**

- Underground cable and duct bank installations using conventional, directional drill and plow methods

- Primary and secondary services
- Underground feeder replacement

AT TRAFFORD, WE'VE DEVELOPED NEW TECHNOLOGIES TO IMPROVE QUALITY WHILE LOWERING MAINTENANCE AND REPAIR COSTS FOR MANY OF THE LARGEST UTILITY CUSTOMERS ON THE EAST COAST.

(Services, continued)

### Trafford Natural Gas Services:

- Meter regulator stations
- Cathodic protection and complete restoration services
- Turn-key underground distribution construction
- Replacement and new business mainline construction and service line installation
- Joint trenching and regulator installations
- Construction repair and maintenance of distribution systems
- Directional drilling
- Materials management and warehousing

### Natural Gas Specialty Services:

- Vacuum excavating/coring including cathodic protection, joint encapsulations and abandonments
- Bridge crossings

- CCTV internal pipeline inspection
- Customer service activities including meter changes, RMD installations and credit

### Trafford Example Projects:

- 40,000 LF 230kV double circuit underground transmission project for a major utility located in the North East. This project combined the skills of several InfrastruX service providers including large-bore directional drilling, open cut excavation, duct bank installation, cable pulling and terminations.
- 10,000 LF installation of a large duct configuration and pre cast manholes in the heavily congested area of Tysons Corner in Northern VA/Washington DC area for a major utility.
- 5,000 LF of 10 way 8" duct bank, five pre cast man holes, five man hole rebuilds and two cast in place structures including crossing a canal and several other major obstructions.

- Annual 300,000 LF of 1 1/4" through 8" plastic natural gas main and service lines including replacement, new business, hard and soft restoration.

- Master service agreements with major utilities for underground utility construction in Virginia, North Carolina, Alabama, Florida and metro Washington DC, which includes cable replacement, new construction and general underground maintenance.

### ENERGY SOLUTIONS YOU CAN RELY ON

InfrastruX Group is a premier national provider of electric power and natural gas transmission and distribution maintenance and construction solutions. By combining a shared strategy with decentralized execution, InfrastruX enables each company to benefit from the greater resources of the group while maintaining a commitment to local concerns and customer requirements. Our services range from turn-key solutions to highly specialized projects, each performed with careful attention to the highest-quality safety standards.
